

## Husky Experience Tour - Pettneu / St. Anton

### **Welcome!**

We are excited to introduce you to our sled dogs. You'll have the chance to pet one or two of our loyal furry friends. After that, we'll give you a brief introduction on how to properly behave in the sled and interact with the dogs.

### **Experience Overview**

While the sled is being prepared, you can continue getting to know the dogs. We'll explain the details of the experience and offer tips for interacting with the sled dogs. Once 6 to 7 of our Huskies are harnessed - an event in itself - your adventure begins.

Each participant will have the opportunity to **ride once, seated at the front of the sled, for a distance of up to 1 mile (1.6 km)**, experiencing the beauty of nature from the dogs' perspective.

During the ride, we'll provide information about sled dogs, sled dog sports, and our own dogs, and we'll continue to share these details with participants who are waiting in the Trapper Camp. We are always available to answer any questions you may have.

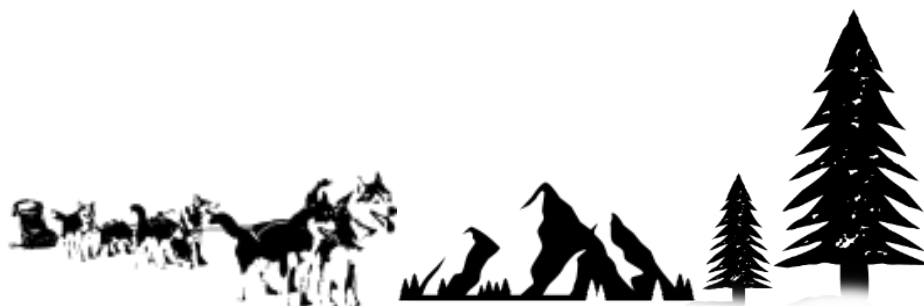

Since we'll be in a larger group, the length of the course has been adjusted out of consideration for our Huskies, and each participant will **take their turn riding one after the other**. Nonetheless, this introductory tour will give you valuable insights into the world of sled dogs.

While you wait for your turn, you can warm up in the Trapper Camp with a hot drink and continue learning interesting facts about sled dogs and the sport. Please note that each participant will ride only once, for a distance of 1 mile (1.6 km).

### **!!!Important Information!!!**

Depending on the weather, it may be necessary to adjust the route, switch to the alternative program (see below), or cancel the event.

If it is not safe to brake or anchor the sled, the sled ride will be replaced by a Husky hike. This decision may be made on short notice, even on the day of the event. If the alternative program cannot be implemented, we may have to cancel the event.
